

Supplemental Regulations in the LDR Applicable to the Proposal

Chapter 212 Planned Development Approval Section 212-1 Purpose and Intent.

Planned Development Approvals are intended to provide an alternative method of land development and redevelopment not available within the framework of the City's standard zoning districts. The standards and procedures of Planned Development Approvals are intended to promote flexibility of design and allow for planned diversification and integration of uses and structures while at the same time, retaining in the Mayor/Council the absolute authority to establish such conditions, limitations and regulations as it deems necessary to maintain community aesthetics and to protect the public health, safety and general welfare. In doing so, Planned Development Approvals are designed to achieve the following objectives:

- (A) Accomplish a more desirable development pattern than would be possible through strict adherence of standard development regulations.
- (B) Accommodate a mixture of uses and/or development patterns which are compatible both internally and externally through limitations on building orientation, architecture, site layout, buffering, signage control, or other techniques which may be appropriate to a particular development proposal.
- (C) Encourage flexible and creative concepts of site development design which meet changing needs, technologies, market economics and consumer preferences.
- (D) Permit the combining and coordinating of architectural styles, building forms and building relationships within a Planned Development.
- (E) Preserve natural amenities of the land by encouraging scenic and functional open areas.
- (F) Encourage an efficient use of land, where appropriate and beneficial to the City, resulting in smaller networks of streets and utilities thereby lowering development and housing costs.
- (G) Maintain consistency with the Goals, Policies, Future Development Character Areas, and related Community Agenda elements of the Comprehensive Plan.
- (H) Maintain general integrity and compatibility with the underlying zoning districts and their prescribed standards of use and development density.

Development Review Comments

The following comments are provided by the reviewing departments and are only intended to provide the developer with useful information for planning purposes. This list should not be considered all inclusive as additional items may appear during the plan review process.

Engineering: No comments regarding rezoning, but comments may arise during the plan review approval process.

Fire:: No issues or concerns.

Landscaping: No comments.

Public Works: No comments

Police: No issues or concerns.
