

Comprehensive Plan Issues

Character Area: Community Activity Center

Description: A focal point for several neighborhoods that has a concentration of activities such as general retail, service commercial, office professional, higher-density housing, and appropriate public and open space uses easily accessible by pedestrians.

Development Strategy: Each Community Activity Center should include a relatively high-density mix of retail, office, services, and employment to serve a regional market area. Residential development should reinforce the town center through locating higher density housing options adjacent to the town center, targeted to a broad range of income levels, including multi-family town homes, apartments and condominiums. Design for each Community Activity Center should be very pedestrian-oriented, with strong, walkable connections between different uses. Road edges should be clearly defined by locating buildings at roadside with parking in the rear. Direct connections to greenspace and trail networks should be provided. The pedestrian-friendly environment should be enhanced by adding sidewalks and other pedestrian-friendly trails/bike routes linked to other neighborhood amenities such as libraries, neighborhood centers, health facilities, parks, and schools.

Goals and Policies:

GOAL 2: ECONOMIC DEVELOPMENT – To support a growing and balanced economy that bolsters the community's position as a regional economic engine offering high-wage jobs, by ensuring a high-level of workforce adequacy.

GOAL 7: LAND USE – To ensure the community's anticipated growth occurs in a well-integrated yet organized fashion, which protects our community resources, promotes efficient use of infrastructure and transportation facilities, and supports quality economic development.

POLICY 7.5 – Available land shall be utilized in the most efficient manner while focusing on redevelopment of land where feasible.

Conditional Use Review Criteria
