

The existing land use pattern along Eager Road is dominated by single-family residential subdivisions of various shapes and sizes. There is no question that the residential land use pattern should continue. In terms of zoning pattern, most all of the properties along the north side of Eager Road are zoned R-15. However, it should be pointed out that this is a little deceiving in that the abutting small subdivisions along Jadan Place and Walmar Place are nonconforming in that 1/3 of their lots do not meet the R-15 minimum requirements. By today's standards, they would be zoned R-10 instead. Other nearby developments with a little higher density include those along the south side of Eager Road where there is a mixture of R-15, R-10, and PRD-10 zoning, as well as the Langdale Place development which has R-P zoning. However, the most recent and the most significant development in all of this is the 2013 rezoning of the property about 300' to the west at #316 Eager Road. This property is the exact same dimension and size (1.80 acres) and was successfully rezoned to R-10, and also received a Planned Development approval for 8 dwelling units. Given the actual R-10 nature of the abutting properties to the east and west, using this prior rezoning approval as a benchmark seems like a logical solution and still leaves open the "possibility" of up to 9 dwelling units with a quality Planned Development proposal.

Staff Recommendation: Find R-10 zoning consistent with the Comprehensive Plan and the Standards for the Exercise of Zoning Power (SFEZP) and recommend **approval of R-10 zoning** instead, to the City Council.
