

neighborhood. Had that been disclosed, I would have reconsidered my investment. As a current homeowner who remains legally bound by said covenants, I respectfully request clarification regarding how they can now be disregarded in favor of the proposed rezoning.

I made a long-term investment in this community in good faith, and I am concerned that permitting multi-family development will negatively impact property values and undermine the quality and cohesion of our neighborhood.

I fully understand that growth and development are inevitable. However, any new construction on this property should align with the existing aesthetic and residential character of the area. Appropriate development would consist of upscale single-family homes consistent with the original intentions of the subdivision's design and covenants.

Thank you for your consideration. I appreciate the opportunity to express my concerns and ask that you take them into account when reviewing this rezoning request.

Sincerely,

Lisa Thomas Gill
