

Industrial and Intensive Zoning Districts

The following industrial **zoning districts** are established:

- A. M-1, Light Manufacturing. This **district** provides for light industrial **uses** which do not create excessive noise, odor, smoke, or dust and do not produce, store, or handle hazardous wastes. Permissible **uses** include activities involved in warehousing, assembly, storage, and commercial services.
- B. M-2, Heavy Manufacturing. This **district** provides for the manufacturing, assembling, storage, distribution, and sales activities that are generally high intensity. For those industries which may have negative impacts or nuisance factors associated with their **use**, supplemental standards shall apply within the **district**.
- C. M-3, High Intensity Industrial. This **district** provides for industrial **uses** that are involved in high intensity manufacturing and processing of materials which create excessive noise, odor, smoke, or dust. Special considerations for high intensity industrial **uses** include screening of activities, noise mitigation, and protection from encroachment from incompatible **development**.
- D. I-S, Intensive Services. This **district** is intended to provide sites for public and private facilities for wastewater treatment, land application of effluent, **landfills**, energy generation, resource recovery, and similar **uses** which may require environmental **permits**.
