

Comprehensive Plan Issues

Character Area: Established Residential

Description: Typically, an older neighborhood having relatively well-maintained housing, possessing a distinct identity through architectural styles, lot and street design, and having higher rates of homeownership. These areas are typically located closer to the core of the community and may be located next to areas facing intense development pressures.

Development Strategy: Focus should be on reinforcing stability by encouraging more homeownership and maintenance or upgrading of existing properties. Vacant properties offer opportunity for infill development of new, architecturally compatible housing. Strong pedestrian and bicycle connections should be provided to enable residents to walk/bike to work, shopping, or other destinations in the area.

Goals and Policies:

GOAL 7: LAND USE – To ensure the community’s anticipated growth occurs in a well-integrated yet organized fashion, which protects our community resources, promotes efficient use of infrastructure and transportation facilities, and supports quality economic development.

POLICY 7.4 – Positive impacts on the built and natural environment shall be anticipated through only the highest standard of development throughout all parts of the community.

POLICY 7.5 – Available land shall be utilized in the most efficient manner while focusing on redevelopment of land where feasible.

Conditional Use Review Criteria

The following criteria shall be applied in evaluating and deciding any application for a Conditional Use Permit. No application for a Conditional Use Permit shall be granted by the City Council unless satisfactory provisions and arrangements have been made concerning each of the following criteria, all of which are applicable to each application:

<i>(1) Is the proposed use consistent with the requirements of the zoning district in which it is located, including required parking, loading areas, setbacks and transitional buffers?</i>
<i>Applicant:</i> The proposed manufactured home will comply with applicable zoning requirements, setbacks, parking and utility requirements for the property. The home will be used a single-family residence.
<i>Staff:</i> Yes
<i>(2) Is the proposed use compatible with the land uses on adjacent properties, including the size, scale and massing of buildings?</i>
<i>Applicant:</i> The proposed use is compatible with surrounding residential properties in the area. The size and scale of the manufactured home will be similar to other residential structures nearby and will not negatively impact adjacent properties.
<i>Staff:</i> No. Existing residential uses in the surrounding area are dominated by site-built single-family homes.
<i>(3) Is the ingress and egress to the subject property, and all proposed buildings, structures and uses thereon adequate? Are the public streets providing access to the subject site adequate to safely handle the traffic generated by the proposed use?</i>
<i>Applicant:</i> The property has adequate access from the existing public street. The proposed residential use will generate minimal traffic and the surrounding roadways are adequate
<i>Staff:</i> Yes
<i>(4) How will the proposed use impact other public facilities and services, including stormwater management, schools, parks, sidewalks, and utilities? Are these facilities and services adequate to support the proposed use?</i>
