

Letter of Intent

Hello My Name is Paul Inman My wife Terria Inman and I am writing you to ask for permission to put our forever home on property 4004 Ulmer Ave. The corner lot across from the solar farm. Reason being is because this is my neighborhood. My childhood neighborhood to be exact. This is where I grew up with my twin sister Paulette and my late mother and father Josie and Daymon Inman. Where my father was a well know brick mason in the community. He his self actually bricked up our home that used to sit on this property up until about a year ago when it was demolished by the city due to some unforeseen circumstances and misunderstandings from my then lawyer and now all of my core memories are gone and im asking only to be able to rebuild new memories in the same neighborhood where it all started. Im currently homeless with my wife and 2 kids. I would admit we are first time home buyers and purchased this home blindly to the fact that we knew nothing about permits being pulled and when they were. We was in for a treat at something that was only supposed to take a few weeks to complete has taken months. And being able to move in our home with approval from the committee would be our Greatest Blessing. Thank you
