

Short-Term Water Quality Management Practices (0 – 10 Years)

a) Point Sources:

- a. Support and fund current permitting and waste load allocation process to improve the treatment of wastewater and increase treatment capacity.
- b. Data collection and research to confirm discharge volumes and waste concentrations as well as receiving stream flows and chemistry

b) Non-Point Sources:

- a. Data collection to confirm the source of pollutants and causes; encourage stormwater ordinances, septic system maintenance, and coordinated planning
- b. Ensure funding and support for local and state Best Management Practices programs, including urban/suburban, rural, forestry, and agricultural Best Management Practices

c) Non-point Source Existing Impairments:

- a. Total maximum daily load listed streams: Improve data on the source of pollutant and length of impairment; identify opportunities to leverage funds, and implement non-point source Best Management Practices
