

development planning process developed with regional public- and private-sector participation. The CEDS sets forth the goals and objectives necessary to solve the economic development problems of the Southern Georgia region and clearly defines the measures of success.

The Southern Georgia CEDS gives an overview of the region, briefly describing the geography, population, economy, labor and workforce development and use, education, transportation access, environment, and regional resources. It reviews the state of the regional economy and provides a list of achievable goals and objectives for the region, a plan of action to ensure success, and performance measures used to evaluate the strategy's successful development and implementation.

Policies, needs, opportunities, and projects drawn from the current comprehensive plans for each jurisdiction in the 18-county SGRC region were used extensively to develop the EDA Investment Priorities, CEDS Strategic Focus Areas, Goals and respective Action Plans. Furthermore, the CEDS was also used to provide guidance for developing the goals, opportunities, policies, and projects in this local Comprehensive Plan.

Goals, needs and opportunities, policies, and community work program projects related to economic development can be found in the "Economic Development" subsections of the relevant sections of this Comprehensive Plan.

Furthermore, included below are strategic focus areas, goals, and action plans from the regional CEDS that are strongly aligned with the current economic development goals of Lowndes County and the Cities of Dasher, Hahira, Lake Park, Remerton, and Valdosta.
