Development Strategy

The rural character should be maintained by strictly limiting new development and protecting farmland and open space by maintaining large lot sizes and promoting use of conservation easements. Residential subdivisions should be severely limited and any minor exceptions should be required to follow a rural cluster zoning or conservation subdivision design. New development should not utilize “franchise” or “corporate” architecture but instead should use compatible rural architectural styles. Roadways should be widened only when absolutely necessary. Roadway alterations should be carefully designed to minimize visual impact. These areas should be promoted for passive-use tourism and recreational destinations.
