

Power Usage

Specific information related to power usage is most accurately communicated by power providers.

Lowndes County Understands:

- ❖ Georgia Power has approved a “power study” scheduled to begin in September.
- ❖ If power to the site is approved, the developer is required to fund needed infrastructure.
- ❖ Georgia Power has stated that no data center development costs will be passed to residential users.
- ❖ Georgia Power has stated that data centers do not take power priority from residential distribution.

Lowndes County will continue to ask questions regarding power usage and will share any information that is obtained.
