

**Reportable event:** An event occurring on transit right-of-way, in a transit revenue facility, in a transit maintenance facility, or involving a transit revenue vehicle, excluding occupational safety events occurring in administrative buildings.

**Risk:** An assessed probability and severity calculation to classify the overall potential consequences of a hazard.

**Safety Assurance:** A list of defined safety performance indicators for each priority risk and associated targets the Agency will use to determine if it is achieving the specified safety goals.

**Safety Events:** Include but are not limited to collisions, fires, hazardous material spills, slips, trips, falls, smoke, power failure, maintenance-related issues, or electric shock. To be reported as a major event, these events must either meet the fatality, evacuation, or property damage threshold or result in two or more injured persons. Other Safety Events that cause only one person to be immediately transported from the scene for medical attention, and that do not trigger any other reporting threshold, are reported on the Non-Major Monthly Summary Report form. The FTA includes Other Safety Events that occur in a transit maintenance facility and meet a reporting threshold but continues to exclude occupational safety events occurring in administrative buildings.

**Safety Performance Target:** A performance target related to safety management activities.

**Serious injury:** Any injury which: (1) Requires hospitalization for more than 48 hours, commencing within 7 days from the date the injury was received; (2) Results in a fracture of any bone (except simple fractures of fingers, toes, or noses); (3) Causes severe hemorrhages, nerve, muscle, or tendon damage; (4) Involves any internal organ; or (5) Involves second or third degree burns, or any burns affecting more than 5 percent of the body surface.
