

processes. Removal rates would increase by 50% over the current screening systems in place at this time.

OPTIONS: (1) The Staff recommends approving the sole source quote submitted by Cornerstone H2O in the amount of \$279,900 for the purchase of the Micro Bar Screen, (2) Do not approve the sole source quote for the purchase of the Micro Bar Screen.

RECOMMENDED ACTION: Option (1)

ADMINISTRATIVE COMMENTS: At this time, the Mud Creek Water Pollution Control Plant (WPCP) does not use a Micro Bar Screen and approving the purchase of one is needed. This will also increase the removal rates by 50% over the current screening system.

ADMINISTRATIVE RECOMMENDATION: I recommend approving the sole source quote submitted by Cornerstone H2O in the amount of \$279,900 for the purchase of the Micro Bar Screen for the Mud Creek WPCP.

Richard L. Hardy, City Manager
